SEP 30 1981

Honorable Mark O. Hatfield
Chairman, Committee on Appropriations
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

For 24 years, the General Services Administration has been compiling an inventory of real property leased to the United States throughout the world.

Our latest summary, "Inventory Report on Real Property Leased to the United States Throughout the World, as of September 30, 1979," is detailed on the following pages.

This report shows that the Federal Government leases real property with an annual rental of $911.9 million; an increase of $42.0 million over the previous year's report. Section 7 of this report summarizes and explains the more significant changes in leased real property.

The detailed inventory listings, upon which this summary report is based, are being forwarded under separate cover. Copies of the summary report and the detailed listings are also being forwarded to the House Committee on Government Operations.

This report, together with the "Inventory Report on Real Property Owned by the United States Throughout the world, as of September 30, 1979," published by the General Services Administration on May 29, 1981, furnishes a comprehensive presentation of the worldwide real property holdings of the United States.

Sincerely,

Gerald P. Carmen
Administrator

REPORT ON REAL PROPERTY LEASED TO THE UNITED STATES THROUGHOUT THE WORLD

INTRODUCTION

1. COVERAGE

This Inventory Report on Real Property Leased to the United States Throughout the World, as of September 30, 1979, summarizes detailed data in the 24th annual inventory prepared by General Services Administration pursuant to the authority of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended.

The detailed inventory which supports this summary report covers all real property leased to the U.S. Government (including wholly owned Government corporations) throughout the world, as of September 30, 1979.

It includes real property leased from private individuals, organizations, and municipal, county, State, territorial, and foreign governments, as evidenced by a written agreement involving a monetary consideration and a landlord-tenant relationship. Also, it includes the right of use and occupancy of real property obtained under eminent domain or equivalent proceedings by the Federal Government.

Real property leased rent free or for nominal rental is included when considered significant by the reporting agency.

Inventory data are presented in three major geographical groupings: (1) United States; (2) outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Virgin Islands); and (3) foreign countries.

A. Reporting Entity Coverage

A reporting entity, for purposes of the detailed inventory, is a lease or combination of leases covering: (a) land; (b) buildings or portions thereof; (c) structures and facilities; or (d) combinations thereof. For each reporting entity, the detailed inventory shows its name and location (State or foreign country, county, and city including street address where appropriate); predominant use and area of land; predominant use, number and floor area of leased building locations; effective and expiration dates of the lease; period of renewal option; coverage of structures or facilities in the lease, and the annual rental.

Each report submitted for this inventory contains a separate usage classification for land, each building location, and each structure or facility. For purposes of the inventory, the predominant use of the land, building location, or structure as of September 30, 1979, determines its classification. Thus, land leased primarily for storage purposes is so classified, even though certain portions thereof are used for other purposes. Similarly, building space leased primarily for office purposes is so classified even though small areas have other uses.

B. Acreage

Acreage data in this report are limited to the land area specified in the lease agreements and consist, for the most part, of land located separately and land leased in conjunction with building space. In many instances, acreage figures were not reported for land on which buildings are located since buildings leases frequently do not specify the land acreage.

C. Building Classifications

A building location represents a specific area obtained under a lease agreement, varying in size from a small room to an entire building. The number of building locations does not indicate the number of buildings in which space is leased as there may be several leases for space in a single building.

Building floor area data are based on square footage stated in lease agreements. Data on floor area of housing space in foreign countries are generally estimated from the description of the dwelling in the lease.

D. Other Structures and Facilities

The Federal Government leases few structures and facilities other than buildings. When leased, these structures are sometimes combined with land or building space without a division of rental between the two types of real property. These data are not shown separately in this report since there is no common measure for other structures and facilities.

E. Annual Rental

The annual rental shown in this report represents the rental rate on the real property for a 12-month period. The following factors concerning the annual rental should be considered:

(1) Rentals on leases made on a daily, weekly, or monthly basis have been converted to annual rates;

(2) Annual rentals shown do not necessarily coincide with an agency's rental disbursements in fiscal year 1979 since some real property may not have been leased for a full year;

(3) Annual rental rates for foreign leases payable in local currencies have been converted to dollars at official exchange rates;
(4) Leases generally provide for a single rental amount and do not segregate the portion applicable to land, buildings, and other structures and facilities; and
(5) Only leases in effect as of September 30, 1979, have been reported. Leases which expired prior to this date are not included.

F. Exclusions

Real property occupied under permit or similar arrangements with other Federal agencies or wholly owned Government corporations is excluded. Also excluded are rights-of-way, easements, and leasehold improvements (Government-owned buildings or structures located on leased land are included in the federally owned real property inventory). Real property leased rent free or for nominal rent is excluded when considered insignificant by the reporting agency.

2. SOURCE OF DATA

The real property data in this summary report are based on detailed inventory reports submitted by Federal agencies pursuant to Federal Property Management Regulations, subchapter A, part 101-3, Annual Real Property Inventories.

The reporting entity, for purposes of this inventory, is a lease or combination of leases covering: (a) land; (b) buildings or portions thereof; (c) other structures and facilities; or (d) combinations thereof. Real property leased to the United States is reported as follows:

A. Single Leases-Single Reports.-Each lease executed for a building location(s), other structures and facilities, or combinations thereof (whether or not land is included), with a total annual rental of $2,000 or more, is the subject of a single report. Each lease executed for land only, with an annual rental of $500 or more, is the subject of a single report.

B. Multiple Leases-Single Reports.-At the discretion of the reporting agency, a lease executed for a building location(s), other structures and facilities, or combinations thereof (whether or not land is included) with a total annual rental of less than $2,000 is combined

with similar leases to form a single report, provided the location(s) of the properties is in one of the following geographical areas:

(1) The same major city (in the United States only-limited to cities listed in app. 1, table 7);
(2) The same State (excluding leases for properties in major foreign cities); or
(3) The same outlying area of the United States or foreign country.

A lease executed for land only, with an annual rental of less than $500 is combined with similar leases to form a single report, provided it meets the location restrictions outlined in B. (1), (2), or (3) above.

Agency reports show the name and location of the leased property; predominant use and area of land; predominant use, number, and floor area of leased building locations; predominant use of structures and facilities; and the lease terms. The lease terms include the effective and expiration dates of the lease, the period of renewal option, and the annual rental.

Civil agencies reported separately for each reporting entity throughout the world. The Department of Defense reported individually for each reporting entity in the United States. Defense also reported only overall summary data on total acres and total annual rental for its military functions in the outlying areas of the United States and in foreign countries.

Agency reports were carefully reviewed for accuracy, completeness, and conformance with instructions. Questionable items were resolved with agency representatives and the detailed inventory listings supporting the summary data in this report were certified by the respective agencies as to the accuracy of the data therein.

3. BACKGROUND

The Government-wide real property inventory program was initiated and is being continued pursuant to the desire of the Senate Committee on Appropriations. A comprehensive history of the real property inventory program is contained in the Senate Hearings on the Supplemental Appropriations Act, 1958 (Public Law 85-170).

This report, together with its companion report on federally owned real property, published by General Services Administration on May 29, 1961, furnishes a comprehensive presentation of the worldwide real property holdings of the United States. The availability of these data in a single place facilitates achievement of maximum control over and utilization of

federally owned and leased real property. The inventories are used in the preparation of budgets by individual agencies and in the evaluation and appraisal of budgetary requests by Office of Management and Budget and the Senate and House Appropriations Committees.

The Government-wide real property inventory (both owned and leased) constitutes a central source of information to the Congress, Office of Management and Budget, General Accounting Office, General Services Administration, and various Federal agencies.

The availability of pertinent information in a single place covering all real property owned by and leased to the United States throughout the world serves to reduce the requirement for time-consuming special studies and inquiries.

The real property inventory, in combination with other available data, is being used in planning space needs; in promoting fuller utilization of available properties; in conducting property management and property accounting surveys; in the evaluation of budgetary requests for acquisition of real property; and in onsite inspection activities.

The inventory is a ready reference to all the Government's holdings in a given area. This provides information which, prior to the inventory, was not available without consultations with many agencies and site inspections. The availability of the Government-wide realty information has undoubtedly saved some travel and administrative expenses.

Several of the real property holding agencies have indicated that the inventory is serving to promote better real property management; stimulate improvements in property accounting and reporting; provide data for operational and budget purposes and for answering various inquiries on their realty holdings.

The General Services Administration collaborated with the General Accounting Office in providing appropriate guidelines to Federal agencies designed to assure consistent application of sound practices and adequate standards in accounting and reporting for owned and leased properties.

4. AVAILABILITY AND USE OF THE INVENTORY BY THE PUBLIC

The real property inventory was established primarily to serve as a ready reference within the Federal Government of all of the Government's holdings (both owned and leased). As a by-product copies of the worldwide detailed inventory listings, arranged both geographically and by reporting agency, are on file and available for public inspection at the Central Office of the General Services Administration in Washington, DC. Copies are also available in each GSA regional office covering the States within each regional area. See appendix 2 for a list of regional offices and the areas under their jurisdiction.

REAL PROPERTY LEASED TO THE UNITED STATES THROUGHOUT THE WORLD

5. SUMMARY OF REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT THROUGHOUT THE WORLD

Real property is leased to the Federal Government in every State, the District of Columbia, 5 outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Virgin Islands, American Samoa, Canal Zone, and Guam), and in 140 foreign countries, at a total annual rental of $911.9 million. This rental is comprised of: (a) $800.5 million in the United States; (b) $3.5 million in outlying areas of the United States; and (c) $107.9 million in foreign countries. Rental data are presented graphically in chart 1.

Summary data on real property leased inside the United States, by State and the District of Columbia are shown in appendix 1, table 5. Data on real property leased outside the United States, by continent and country, are shown in appendix 1, table 9.

Civil agencies account for $838.6 million, or 91.9 percent, and the Department of Defense accounts for $73.3 million of the worldwide annual rental. These and other summary lease data are shown in the following table, by major geographical areas. (See also appendix 1, table 1).

(1) These data were not furnished by Department of Defense for its military functions outside the United States.
(2) Less than $0.1 million.
(3) Less than 0.1 percent.

The Department of Defense furnished only summary figures on total acres and total annual rental for its military functions located outside the United States. Therefore, the tables and charts in this report do not show detailed information (e.g., number of leases, number of locations and floor areas of buildings, and geographical locations) for military functions outside the United States.

The General Services Administration and the U. S. Postal Service account for $682.5 million, or 74.8 percent, of the total annual rental of $911.9 million for real property leased to 22 Federal agencies throughout the world.

The table below lists the annual rental of the major leasing agencies:

Agency	Annual Rental (in millions)				Percent of total
	United States	Outlying areas of the United States	Foreign countries	Total	
General Services Administration	$480.2	$1.4	$ 0.0	$481.6	52.8

Additional summary data on the annual rental of real property leased to each reporting agency, by major geographical area, are shown in appendix 1, table 3.

The largest land-leasing agency is the Department of Defense which leases 1,191,413 acres, or 84.8 percent, of the 1,405,132 acres leased to the Federal Government throughout the world.

The following tabulation shows the acreage leased to the principal land leasing agencies by major geographical area:

Agency	Acres			
	United States	Outlying areas of the United States	Foreign countries	Total
Defense	1,154,413	0	37,000	1,191,413

Total	1,356,320	1,252	47,720	1,405,132

Summary data on acreage leased to each Federal agency are shown in appendix 1, table 3.

6. LAND AND BUILDINGS LEASED TO AND OWNED BY THE FEDERAL GOVERNMENT THROUGHOUT THE WORLD

The total land leased to and owned by the Federal Government throughout the world is 746.1 million acres, of which a minor portion, 1.4 million acres is leased.

The following table shows the total acreage leased to and owned by the Federal Government throughout the world, by location. These data exclude 2 million acres of foreign base rights under the control of the Department of Defense. Occupancy of these bases is on a term basis, revocable at the discretion of the host government.

Location	Acres (in millions)		
	Leased to United States	Federally owned	Total

(1) Less than 0.1 million acres.

Civil agencies administer a total of 995.8 million square feet of leased and owned building space throughout the world, of which 218.2 million square feet are leased.

The Department of Defense leases only a minor percentage of its total building space requirements in the United States. Data on building space administered by Defense outside the United States were not reported. A comparison of leased and owned building space is shown in the following table:

Description	Floor area (square feet in millions)

Appendix 1, table 2 provides additional summary data on real property leased to and owned by the Federal government throughout the world.

7. COMPARISON OF REAL PROPERTY LEASED TO THE UNITED STATES THROUGHOUT THE WORLD AS OF SEPTEMBER 30, 1979, and SEPTEMBER 30, 1978

A comparison of data for real property leased to the United States throughout the world as of September 30, 1979, and September 30, 1978, shows increases of $42.0 million in annual rental and 1,332.0 acres of land, and a decrease of 9.4 million square feet of building space.

The following tabulation shows a comparison of summary inventory data as of September 30, 1979, and September 30, 1978.

Real Property	Sept. 30, 1979	Sept. 30, 1978	Net change	Percent of change over prior year
Annual rental (in millions of dollars)	$ 911.9	$ 869.9	$42.0	4.8
Land (acres in thousands)	1,405.1	1,403.6	1.5	0.1
Building, floor area (square feet in millions)	218.2	227.6	(9.4)	(4.1)

Appendix I, table 4 shows detailed comparative data on leased real property as of September 30, 1979, and September 30, 1978, with regard to acreage, building floor area, and annual rental for each reporting agency.

The following two tables show the three agencies of the 22 leasing agencies which account for the major portion of the net increase of $42.0 million in annual rental and the net decrease of 9.4 million square feet of building floor area:

Agency	Annual rental (in millions of dollars)		
	Sept. 30, 1979	Sept. 30, 1978	Net change
General Services Administration	$481.7	$467.9	$13.8
Department of Defense	73.3	72.7	0.6
Department of State	58.2	54.6	3.6
Subtotal	613.2	595.2	18.0
Other agencies (19)	298.7	274.7	24.0
Total	$911.9	$869.9	$42.0

Agency	Floor area (sq. ft. in millions)		
	Sept. 30, 1979	Sept. 30, 1978	Net change
General Services Administration	87.2	86.6	0.6
Department of Defense	12.1	11.7	0.4
Department of State	17.2	16.9	0.3
Subtotal	116.5	115.2	1.3
Other agencies (19)	101.7	112.4	(10.7)
Total	218.2	227.6	(9.4)

General Services Administration, which is responsible for leasing space for most Federal agencies in the United States, reported increases of $13.8 million in annual rental and 0.6 million square feet of floor area. The net increases are primarily due to the following: (1) additional space needs due to the increase in Federal activities; (2) rental increases on lease renewals; and (3) improvements of space in tenant agencies.

The Department of Defense reported increases of $0.6 million in annual rental and 0.4 million square feet of building floor area. The increases were primarily due to adjustments and corrections to annual rent and square feet of floor area reported in prior year reports.

The Department of State reported increases of $3.6 million in annual rental and 0.3 million square feet of floor area resulting from improvements made to real property leased accounting records at overseas posts that now provides more accurate reporting data.

Chart 2 graphically presents a comparison of annual rentals by major leasing agencies as of September 30, 1979, and September 30, 1978.

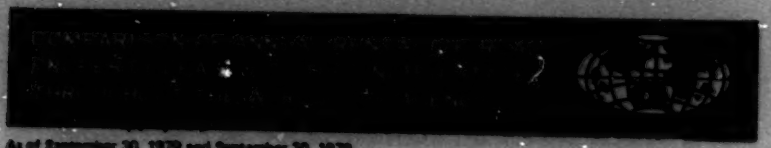
B. SUMMARY OF REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT IN THE UNITED STATES

Real property leased to the Federal Government in the United States is comprised of 1.4 million acres of land, 210.0 million square feet of building space and various other structures and facilities. This real property is rented under 66,553 leases and provides for a total annual rental of $800.5 million.

The Department of Defense leased 1,154,413 acres, or 85.1 percent of the total land leased to the Federal Government in the United States, but only 12.1 million square feet, or 5.8 percent of the leased building space. Civil agencies leased 201.9 acres and 197.9 million square feet of building space.

The following table summarizes data in this report with respect to real property leased to the Federal Government in the United States:

Description	Number of leases	Land (acres in thousands)	Building floor area (sq. ft. in millions)	Annual rental (in millions)
Civil agencies	56,349	202	197.9	764.6
Defense:				
Military functions	9,497	1,134	11.7	34.8
Civil functions	707	20	0.4	1.1
Total, United States	66,553	1,356	210.0	800.5



As of September 30, 1979 and September 30, 1978

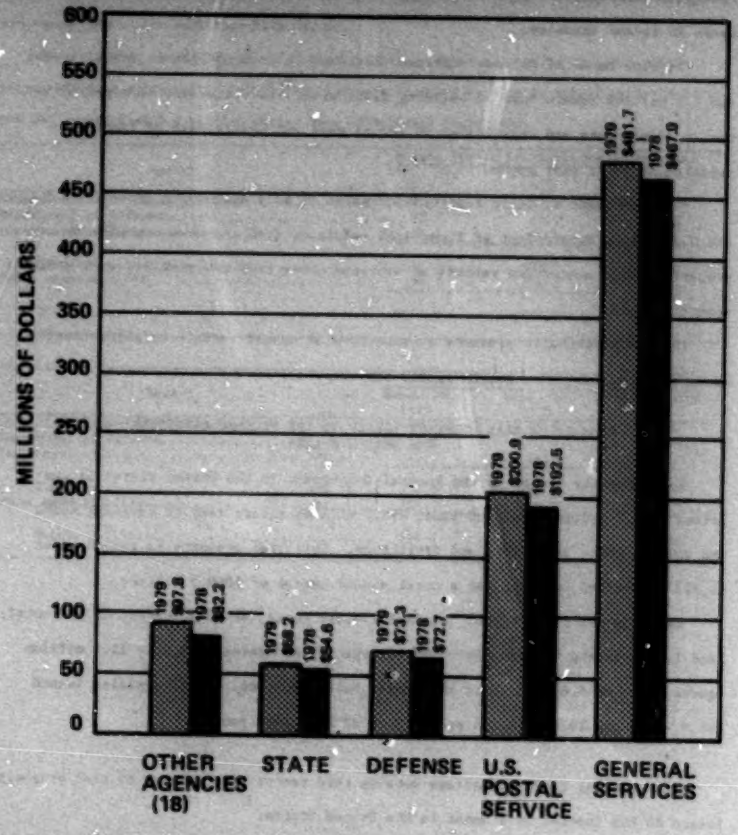


CHART 2

Of the total land leased in the United States, 1.3 million acres are located in rural areas while 40 thousand acres are located in urban communities. Additional data on real property leased in the United States by location and agency are presented in sections 9 and 10 and Appendix 1, tables 5, 6, and 7. Data on real property leased in the United States by predominant usage are presented in sections 11 and 12.

9. REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT IN THE UNITED STATES, BY AGENCY

The General Services Administration, which is responsible for rental of office and storage space in the United States for most Federal agencies and Government corporations, and the U. S. Postal Service account for annual rental of $679.8 million, or 84.9 percent of the total annual rental of $800.5 million for real property leased in the United States.

The following table summarizes data on real property leased in the United States, by major leasing agency:

Agency	Leases (number)	Floor area (sq. ft. in millions)	Annual rental (in millions)
General Services Administration	6,680	86.9	$480.2
U. S. Postal Service	30,170	87.5	199.6
Defense Department	10,204	11.7	34.7
Transportation Department	12,724	7.2	24.3
Agriculture Department	4,757	4.9	19.3
Tennessee Valley Authority	201	2.3	11.1

Other agencies (16)	1,817	9.5	31.3
Total	66,553	210.0	800.5

Additional summary data on real property leased to the Federal Government in the United States, by agency and bureau, are shown in appendix 1, table 6.

Chart 3 graphically presents the total annual rentals paid for real property, by major leasing agency.

Summary data on real property leased to the Federal Government in each State are provided in appendix 1, table 5.

11. LEASED BUILDING SPACE IN THE UNITED STATES BY PREDOMINANT USAGE

Building space located in 50,650 building locations, containing 210.0 million square feet of space, were leased to the Federal Government in the United States.

Leased building space is reported in 11 categories according to the predominant usage of the space. These categories are office, post office, hospital, school, other institutional, housing, storage, industrial, service, research and development, and all other.

Building space leased to the Federal Government ranges from 18.2 million square feet in California to 233,989 square feet in Delaware. The following table lists the 16 States and the District of Columbia wherein 69.9 percent of the building space is located:

State	Floor area (sq. ft. in millions)	Percent of total
California	18.2	8.7
District of Columbia	15.3	7.3
New York	14.8	7.0

12. REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT IN THE UNITED STATES, BY MAJOR CITY

Building space rented in or near 133 major cities by the Federal Government totals 95.3 million square feet. This space represents 45.4 percent of the Government's total leased building space requirements in the United States.

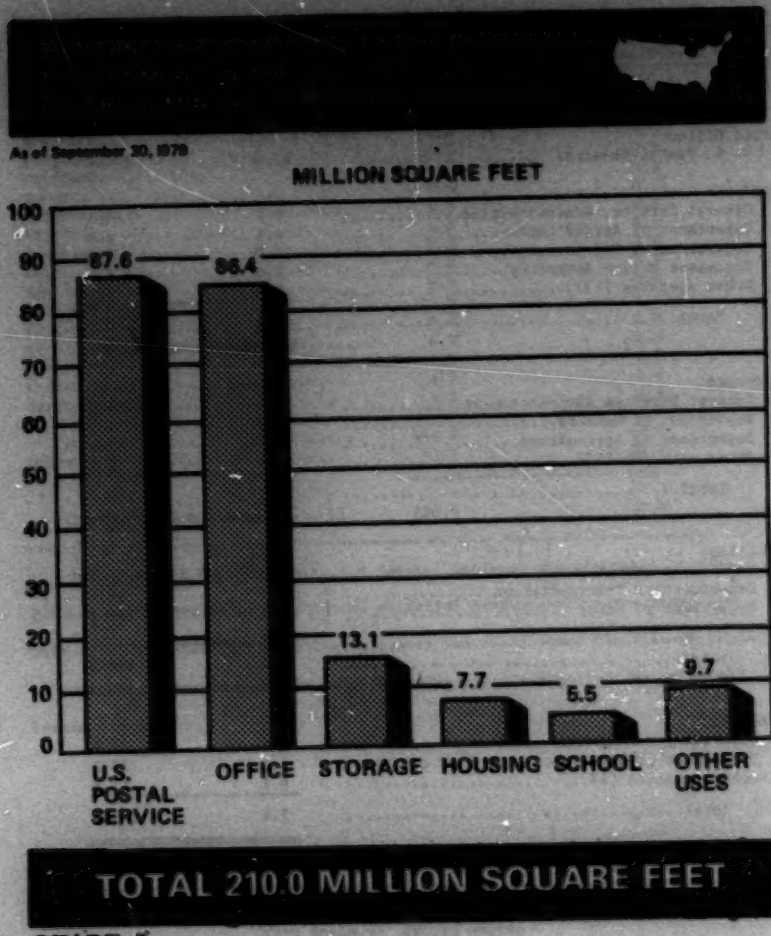

CHART 5

The annual rental for all real property leased in these major cities is $417.7 million, or 52.2 percent of the total annual rental for all real property leased to the Federal Government in the United States.

Washington, DC, and New York, NY, with annual rentals of $82.5 million and $36.3 million, respectively, lead all other cities in real property leased to the Federal Government. The table below shows floor area and annual rental for property leased to the Federal Government in fourteen major cities in the United States:

City	Building floor area (sq. ft. in millions)	Percent of total floor area	Annual rental (in millions)	Percent of total annual rental

REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT OUTSIDE THE UNITED STATES

13. SUMMARY OF REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT OUTSIDE THE UNITED STATES

The annual rental for real property leased to the Federal Government outside the United States is $111.4 million. Of this total, $107.9 million or 96.9 percent is for real property leased in 139 foreign countries, and $3.5 million is for real property leased in four outlying areas of the United States.

The following table summarizes data for real property leased outside the United States. Data on the floor area of building space leased outside the United States were not reported by Defense, and, therefore, are not shown in the following table:

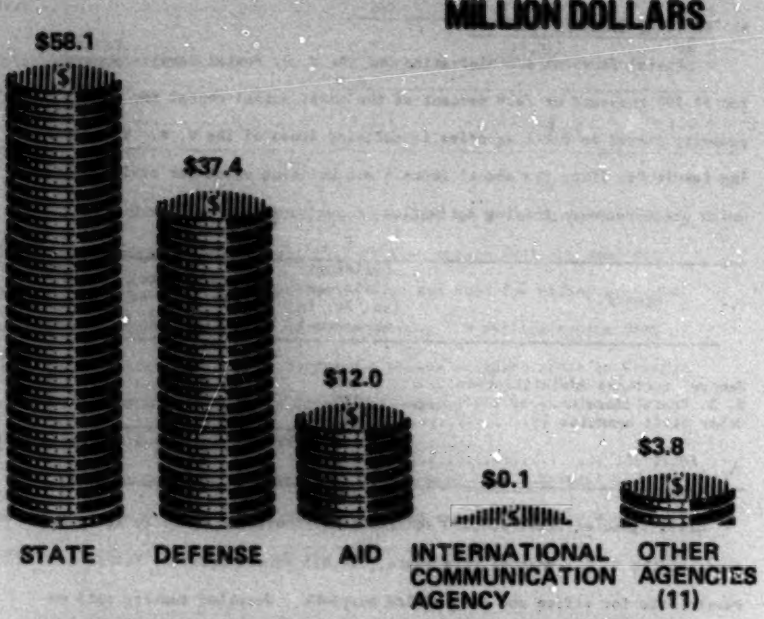
Appendix 1, tables 8 and 9, contain additional summary data on real property leased to the Federal Government in outlying areas of the United States and in foreign countries, by agency and by location. These tables show complete supporting data for civil agencies only. The Department of Defense furnished only summary figures on total acres and total annual rental for its military functions located outside the United States.

ANNUAL RENTAL OF REAL PROPERTY LEASED TO THE FEDERAL GOVERNMENT OUTSIDE THE UNITED STATES, BY AGENCY

As of September 30, 1970



TOTAL $111.4 MILLION

Chart 6

Four agencies, Defense, State, Agency for International Development, and the International Communications Agency account for $107.7 million or 96.7 percent of the total annual rental outside the United States. Chart 6 presents annual rental data on real property leased outside the United States, by major leasing agency.

14. REAL PROPERTY LEASED TO CIVIL AGENCIES OF THE FEDERAL GOVERNMENT OUTSIDE THE UNITED STATES

Civil agencies lease 11,813 acres, 20.3 million square feet of building space, and various other structures and facilities outside the United States at a total annual rental of $74.0 million. This annual rental is comprised of $3.5 million in outlying areas of the U. S. and $70.5 million in foreign countries.

A. Outlying areas of the U.S.

General Services Administration and the U. S. Postal Service account for $2,790 thousand or 79.9 percent of the total annual rental for real property leased to civil agencies in outlying areas of the U. S. The following tabulation lists the annual rentals and building space for civil agencies which predominate in leasing activities in outlying areas of the U. S.:

Agency	Buildings floor area (sq. ft. in thousands)	Annual rental (thousands of dollars)	Percent of total annual rental
General Services Administration.....	182	$1,470	42.1
U. S. Postal Service.....	535	1,320	37.8
Other civil agencies (9).....	89	703	20.1
Total.....	806	$3,493	100.0

Civil agencies lease 806,650 square feet of building space in outlying areas of the U. S. Most of this space, 646,825 square feet, is leased in Puerto Rico for office and post office purposes. Detailed summary data on the amount of floor area leased to civil agencies in outlying areas of the U. S., by agency and bureau, are shown in appendix 1, table 8.

B. Foreign countries

The Department of State and the Agency for International Development account for 99.4 percent of the total annual rental of $70.1 million for real property leased to civil agencies in foreign countries.

The annual rental for real property leased in 10 countries listed in the tabulation below amounts to $19.9 million, or 28.2 percent of the total annual rental for real property leased to civil agencies in foreign countries:

Country	Building floor area (sq. ft. in thousands)	Annual rental (thousands of dollars)	Percent of total annual rental
Hong Kong	259	$ 2,768	3.9
Switzerland	253	2,631	3.7
Egypt	560	2,524	3.6
Japan	273	2,388	3.4
Belgium	437	2,348	3.3

Other countries (123)	15,802	50,584	71.8
Total	19,521	$70,495	100.0

Civil agencies lease 19.5 million square feet of building space in foreign countries. Of this total, 13.2 million square feet are used for housing purposes, and 4.4 million square feet are used for office purposes. Storage space accounts for most of the remaining 1.9 million square feet of leased building space. Over 99 percent of the building space in foreign countries is controlled by State Department, Agency for International Development and Department of Agriculture.

Additional summary data on real property leased to the Federal Government outside the United States, by location and agency, are provided in appendix 1, tables 8 and 9.
